# HOW TO READ YOUR PAYSLIP

## Back Side of Payslip

<b>REMARKS</b> At the top of this Pay Statement, you have been assigned an Employee ID #, It is used, instead of SSN, to identify you in the new Global Pay system. Please keep this Pay Statement, or write your Employee ID # down. You'll want to use it in future pay change requests you send to PSC (RAS). In the near future, you will be able to make routine pay changes on-line through the Internet, and you will need your Employee ID # along with a Password to use the Self-Service application. You will be notified of Self-Service availability and procedures for using it in an upcoming Retiree Newsletter.  There is a new taxation process associated with FSPA. Your monthly FITW and Mo Tax income have been reduced by the amount of your FSPA Property Division (because FSPA Property Division is a pre-tax deduction). Previously, your Mo Tax income was not reduced, and instead your annual Taxable income was adjusted during November.  If you are eligible for multiple annuities from the Coast Guard, under the Global Pay system, you are issued one combined monthly payment. This payment is taxed based on a single federal withholding status. Previously, you received multiple monthly payments, and each payment was separately taxed.  Under the Global Pay system, a customer entitled to multiple payments from the Coast Guard has those multiple payments taxed at a single federal withholding exemption status. Previously, you were allowed to be taxed using separate federal withholding exemption statuses.
